

# Training for Excellence

Diagnostic and Therapeutic EUS Course

**PENTAX**  
MEDICAL

**Course: Diagnostic and Therapeutic EUS**  
15th - 16th January 2018

**Date:**

15th - 16th January 2018

**Course objective:**

This course is designed to improve the EUS practice through the presentation of Live cases. Participants have the opportunity to follow the EUS procedures directly in the endoscopy room. The objective of this course is to support the participants in improving their knowledge regarding:

- Linear EUS anatomy
- EUS in the diagnosis and staging of solid and cystic pancreatic tumors
- EUS in the staging of tumors of the gastro-enteric tract
- Needle aspirates/guided EUS biopsies in solid and cystic lesions of the pancreas, and of the lymph nodes, with the possibility of meeting the cytology technicians in the endoscopy room
- Elastography and contrast medium in EUS
- Therapeutic EUS indications

Considerable space will also be devoted to questions and discussions of cases. Each session will include didactic presentations followed by a discussion on the optimal approach for the diagnosis and management of the cases presented.

**Trainers:**

Dr. P. G. Arcidiacono, Dr. M. C. Petrone,  
Dr. E. Dabizzi

**Course Language:**

The course language is English.
